1. Each Party shall accord national treatment to the goods of the other Party in accordance with Article III of GATT 1994, including its interpretive notes, and to this end Article III of GATT 1994 and its interpretive notes are incorporated into and made part of this Agreement, *mutatis mutandis*.
2. Paragraph 1 does not apply to the measures set out in Annex 2A

Section B: Reduction or Elimination of Customs Duties

Article 2.4: Reduction or Elimination of Customs Duties

1. Except as otherwise provided in this Agreement, neither Party may increase any existing customs duty, or adopt any new customs duty, on an originating good of the other party.
2. Except as otherwise provided in the Agreement, upon the entry into force of this Agreement, each Party shall reduce or eliminate its customs duties on originating goods of the other Party in accordance with its Schedule to Annex 2B or 2C.
3. If at any moment, after the entry into force of this Agreement, a Party reduces its applied most-favoured-nation (hereinafter referred to as “MFN”) customs duty, that duty rate shall apply to originating goods of the other Party if, and for as long as, it is lower than the customs duty rate calculated in accordance with its Schedule included in Annex 2B or 2C.
4. Upon the request of either Party, the Parties shall consult to consider accelerating or broadening the scope of the reduction or elimination of customs duties set out in their

Schedules included in Annexes 2B and 2C. Following such consultations, a decision by the Joint Committee on the acceleration or broadening of the scope of the reduction or elimination of a customs duty on a good shall supersede any duty rate or staging category determined pursuant to the respective Party's Schedule included in Annex 2B or 2C for that good, in accordance with Article 17.2.2 (c) (Functions of the Joint Committee).

5. For greater certainty:

- (a) nothing in this Agreement shall prohibit a Party from unilaterally accelerating, or broadening the scope of the elimination of customs duties set out in its Schedule in Annex 2B or 2C on originating goods;
- (b) a Party may raise a customs duty up to the level established in its Schedule to Annex 2B or 2C following any unilateral reduction referred to in subparagraph (a); or
- (c) a Party may maintain or increase a customs duty as authorized by the Dispute Settlement Body of the WTO.

- 1. The classification of goods in trade between the Parties shall be that set out in the respective tariff nomenclature of each Party in conformity with the Harmonized System (HS) and its amendments.
- 2. The Parties shall mutually decide whether any revisions are necessary to implement Annexes 2B or 2C due to periodic amendments and transposition of the Harmonized System (HS).
- 3. If the Parties decide that revisions are necessary in accordance with paragraph 2, the transposition of the schedules of tariff commitments shall be carried out in accordance with the methodologies and procedures adopted by the Subcommittee on Trade in Goods established under Article 2.18.
- 4. Each Party shall ensure that the transposition of its schedule of tariff commitments under paragraph 3 does not afford less favourable treatment to an originating good of the other Party than that set out in its Schedule in Annex 2B or 2C.
- 5. A Party may introduce new tariff splits, provided that the preferential conditions applied in the new tariff splits are not less preferential than those applied originally.

 - (b) goods intended for display, demonstration or use at theaters, exhibitions, fairs, or other similar events;
 - (c) commercial samples and advertising films and recordings;
 - (d) goods admitted for sports purposes;
 - (e) containers and pallets that are used for the transportation of equipment or used for refilling; and
 - (f) goods entered for completion of processing.
2. Each Party shall, at the request of the importer and for reasons deemed valid by its Customs Authority, extend the time limit for temporary admission beyond the period initially fixed.
3. Neither Party may condition the temporary admission of a good referred to in paragraph 1, other than to require that the good:
 - (a) not be sold or leased while in its territory;
 - (b) be accompanied by a security in an amount no greater than the custom duties and any other tax imposed on imports that would otherwise be owed on entry or final importation, releasable on exportation of the good;
 - (c) be capable of identification when exported;
 - (d) be exported in accordance with the time period granted for temporary admission in accordance with its domestic law related to the purpose of the temporary admission;
 - (e) not be admitted in a quantity greater than is reasonable for its intended use; or
 - (f) be otherwise admissible into the importing Party's territory under its law.

4. If any condition that a Party imposes under paragraph 3 has not been fulfilled, that Party may apply the customs duty and any other charge that would normally be owed on the importation of the good and any other charges or penalties provided for under its law.
5. Each Party through its Customs Authority shall adopt and maintain procedures providing for the expeditious release of goods admitted under this Article. To the extent possible, such procedures shall provide that when such a good accompanies a national or resident of the other Party who is seeking temporary entry, the good shall be released simultaneously with the entry of that national or resident.
6. Each Party shall permit a good temporarily admitted under this Article to be exported through a customs port other than that through which it was admitted in accordance with its customs procedures.
7. Each Party shall provide that the importer of a good admitted under this Article shall not be liable for failure to export the good on presentation of satisfactory proof to the importing Party that the good has been destroyed within the original period fixed for temporary admission or any lawful extension. A Party may condition relief of liability under this paragraph by requiring the importer to receive prior approval from the Customs Authority of the importing Party before the good can be so destroyed.

Article 2.8: Goods Re-Entered After Repair or Alteration

1. Neither Party shall apply a customs duty to a good, regardless of its origin, that re-enters its territory in accordance with its laws and procedures after that good has been temporarily exported from its territory to the territory of the other Party for repair or alteration, regardless of whether such repair or alteration could be performed in the territory from which the good was exported, except that a customs duty or other taxes may be applied to the addition resulting from the repair or alteration that was performed in the territory of the other Party.
2. Neither Party shall apply a customs duty to a good, regardless of its origin, imported temporarily from the territory of the other Party for repair or alteration.
3. For purposes of this Article, “repair” or “alteration” does not include an operation or process that:
 - (a) destroys a good’s essential characteristics or creates a new or commercially different good;
 - (b) transforms an unfinished good into a finished good; or

Article 2.9: Duty-Free Entry of Commercial Samples of Negligible Value and Printed Advertising Materials

Each Party, in accordance with its respective domestic law, shall grant duty-free entry to commercial samples of negligible value, and to printed advertising materials, imported from the territory of the other Party, regardless of their origin, but may require that:

- (a) such samples be imported solely for the solicitation of orders for goods or services provided from the territory of the other Party or a non-Party; or
- (b) such advertising materials be imported in packets, that each contain no more than one copy of each such material, and that neither the materials nor the packets form part of a larger consignment.

Section D: Non-Tariff measures

Article 2.10: Non-Tariff Measures

1. The Parties shall ensure that non-tariff measures are not prepared, adopted or applied with a view to creating unnecessary obstacles to trade with the other Party.
2. If a Party considers that a non-tariff measure of the other Party is an unnecessary obstacle to trade, that Party may present such a non-tariff measure for review by the Subcommittee on Trade in Goods. The Subcommittee on Trade in Goods shall review the measure with a view to securing a mutually agreed solution to the matter.

Article 2.11: Import and Export Restrictions

1. Except as otherwise provided in this Agreement, neither Party may adopt or maintain any prohibition or restriction on the importation of any good of the other Party or on the exportation or sale for export of any good destined for the territory of the other Party, except in accordance with Article XI of GATT 1994 and its interpretative notes. To this end, Article XI of GATT 1994 and its interpretative notes are incorporated into and made a part of this Agreement, *mutatis mutandis*.
2. In the event that a Party introduces a measure that imposes a prohibition or restriction otherwise justified under the relevant provisions of the WTO Agreement with respect to the exportation of goods to the other Party, the Party imposing the measure, shall publish the measure in a timely manner. Upon the request of the other Party, it shall enter into consultation with the aim of resolving any problem that may arise due to that measure.
3. Paragraphs 1 and 2 do not apply to the measures set out in Annex 2A.

Article 2.12: Import Licensing

1. Neither Party may adopt or maintain a measure that is inconsistent with the Import Licensing Agreement.¹
 - (a) Promptly after the entry into force of this Agreement, each Party shall notify the other Party of its existing import licenses, if any. The notification shall:
 - (i) include the information specified in Article 5 of the Import Licensing Agreement; and
 - (ii) be without prejudice as to whether the import license is consistent with this Agreement.
 - (b) Before applying any new or modified import license, a Party shall publish it, to the extent required by its law, on an official government internet site. To the extent practicable, the Party shall do so at least 21 days before it takes effect.
2. Neither Party may apply an import license to a good of the other Party unless the Party has complied with the requirements of paragraph 2 with respect to that import license. Where exceptional and critical circumstances as provided in Article XX of GATT 1994 require immediate action that makes prior notification impossible, the Party may apply it forthwith, as necessary to deal with the situation and shall inform the other Party immediately thereof.

Article 2.13: Export Subsidies

1. Neither Party shall adopt or maintain any export subsidy on any good destined for the territory of the other Party in accordance with the SCM Agreement and the Agreement on Agriculture.
2. Notwithstanding paragraph 1, the Parties reaffirm that a Party may maintain an export subsidy on an agricultural good only in accordance with its commitments made in the WTO Ministerial Conference Decision on Export Competition adopted in Nairobi on 19 December 2015, including the elimination of scheduled export subsidy entitlements for agricultural goods.

Article 2.14: Administrative Fees and Formalities

1. Each Party shall ensure that all fees and charges imposed in connection with importation and exportation shall be consistent with their obligations under Article VIII:1 of GATT 1994 and its interpretive notes, which are hereby incorporated into and made a part of this Agreement, *mutatis mutandis*.

¹ For the purposes of paragraph 1 and for greater certainty, in determining whether a measure is inconsistent with the Import Licensing Agreement, the Parties shall apply the definition of “import licensing” contained in that Agreement.

2. Each Party shall make available and maintain through the internet a current list of the fees and charges it imposes in connection with importation or exportation.

Article 2.15: Export Duties, Taxes, or Other Charges

Except as otherwise provided in this Agreement, neither Party shall adopt or maintain any duty, tax, or other charge on the export of any good destined to the territory of the other Party.

Article 2.16: State Trading Enterprises

The Parties affirm their existing rights and obligations under Article XVII of the GATT 1994, its interpretative notes, and the *Understanding on the Interpretation of Article XVII of the GATT 1994*, contained in Annex 1A to the WTO Agreement.

Section E: Other Measures

Article 2.17: Restrictions to Safeguard the Balance of Payments

1. The Parties shall endeavour to avoid the imposition of restrictive measures for balance-of-payments purposes.
2. The rights and obligations of the Parties relating to restrictions to safeguard the balance of payments shall be in accordance with the GATT 1994, which includes the *Understanding on the Balance-of-Payments Provisions of the GATT 1994*, contained in Annex 1A of the WTO Agreement.

Section F: Institutional Provisions

Article 2.18: Subcommittee on Trade in Goods

1. The Parties hereby establish a Subcommittee on Trade in Goods, comprising representatives of each Party.
2. The Subcommittee shall meet upon request of a Party or the Joint Committee to consider any matter arising under this Chapter.
3. The Subcommittee's functions shall include, *inter alia*:
 - (a) monitoring the implementation and administration of this Chapter;
 - (b) promoting trade in goods between the Parties, including through consultations on broadening and accelerating the reduction or elimination of customs duties under this Agreement and other issues as appropriate;
 - (c) addressing barriers to trade in goods between the Parties, especially those related to the application of non-tariff measures, and, when appropriate, referring such matters to the Joint Committee for its consideration; and

- (d) providing a forum for discussion or the exchange of information, including trade data, on matters related to subparagraphs (a) through (c), which may directly or indirectly affect trade between the Parties, with a view to eliminating their negative effects on trade and seeking mutually acceptable alternatives.
- (e) considering any other matter arising under this Chapter as may be agreed by the Parties.

6. Each Party shall notify the other Party of final sanitary or phytosanitary measures through the WTO SPS notification submission system. Each Party shall ensure that the text or the notice of a final sanitary or phytosanitary measure specifies the date on which the measure takes effect and the legal basis for the measure.  - (a) only during the transition period; and
 - (b) if, as a result of the reduction or elimination of a customs duty under this Agreement, an originating good of the other Party is being imported into the territory of a Party in such increased quantities, in absolute terms or relative to domestic production, and under such conditions that the imports of such originating good from the other Party alone constitute a substantial cause of serious injury, or threat thereof, to a domestic industry.
- 3. If the conditions set out in paragraph 2 are met, a Party may, to the minimum extent necessary to prevent or remedy serious injury or threat thereof:
 - (a) suspend the further reduction of any rate of customs duty on the good provided for under this Agreement; or

- 1. Bilateral safeguard measures may not be applied in the first year after the entry into force of this Agreement.
- 2. A bilateral safeguard measure shall not be applied except to the extent and for such time as may be necessary to prevent or remedy serious injury and to facilitate adjustment and, it shall not be applied for a period exceeding two years. However, this period may be extended to up to one additional year if the competent investigating authorities of the importing Party determine, in conformity with the procedures specified in paragraphs 7 and 8, that the measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment, and that there is evidence that the industry is adjusting, provided that the total period of application of a safeguard measure, including the period of initial application and any extension thereof, shall not exceed four years. The Party maintaining the measure beyond a two year period shall progressively liberalize it at annual intervals during the period of application.
- 3. Neither Party shall apply a bilateral safeguard measure more than once against the same good.

Following the conclusion of the transition period upon request of one of the Parties the Joint Committee shall evaluate whether to continue the bilateral safeguard measures mechanism included in this Chapter.

9. Each Party shall ensure that its competent investigating authorities complete any such investigation within one year of its date of initiation.

Provisional Safeguard Measures

10. In critical circumstances where delay would cause damage that would be difficult to repair, a Party may apply a safeguard measure on a provisional basis pursuant to a preliminary determination by its competent investigating authorities that there is clear evidence that imports of an originating good from the other Party have increased as the result of the reduction or elimination of a customs duty under this Agreement, and that such imports constitute a substantial cause of serious injury, or threat thereof, to the domestic industry.
11. Before a Party applies a provisional bilateral safeguard measure it shall notify the other Party. This notification shall contain all relevant information, including preliminary evidence of serious injury or threat thereof caused by increased imports, a precise description of the product involved and the proposed measure, as well as the proposed date of introduction and expected duration. A Party shall not apply a provisional measure until at least 45 days after the date on which its competent investigating authorities initiate an investigation, in order to allow interested parties to submit evidence and views regarding the imposition of a provisional measure.
12. The duration of any provisional measure shall not exceed 200 days, during which time the Party shall comply with the requirements of paragraphs 7 and 8.

Compensation

13. No later than 30 days after it applies a bilateral safeguard measure, a Party shall provide an opportunity for the other Party to consult with it regarding appropriate trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the measure. The applying Party shall provide such compensation as the Parties mutually agree.
14. If the Parties are unable to agree on compensation within 30 days after consultations begin, the Party against whose originating good the measure is applied may suspend the

application of concessions with respect to originating goods of the applying Party that have trade effects substantially equivalent to the bilateral safeguard measure.

15. The applying Party's obligation to provide compensation under paragraph 13 and the other Party's right to suspend concessions under paragraph 14 shall terminate on the date the bilateral safeguard measure terminates.
16. Any compensation shall be based on the total period of application of the provisional bilateral safeguard measure and of the bilateral safeguard measure.

Article 7.5: Anti-Dumping and Countervailing Measures

1. The Parties agree that anti-dumping and countervailing measures should be used in full compliance with Article VI of GATT 1994, the Anti-Dumping Agreement, and the SCM Agreement.

3. The proceedings shall be based on a fair and transparent system. In furtherance of this, as soon as possible and before the final decision is taken, the Parties shall ensure full and meaningful disclosure of all essential facts and considerations which form the basis for the decision to apply definitive measures without prejudice to Article 6.5 of the Anti-Dumping Agreement or Article 12.4 of the SCM Agreement, as relevant. Disclosures shall be made in writing and allow interested parties at least 10 days to respond with comments.

Hearings

4. Each Party shall hold a hearing, during which interested parties shall be granted the opportunity to be heard in order to express their views during the anti-dumping or countervailing duty proceedings.

Notifications and Consultations

5. A Party initiating an anti-dumping or countervailing duty investigation shall notify the other Party of such initiation by sending a notification to the other Party promptly after the initiation of the investigation.
6. Prior to the imposition of definitive anti-dumping or countervailing measures, the exporting Party, within 10 days of its receipt of the disclosure as specified in paragraph 7.7.5(3), may request consultations with a view to seeking a mutually acceptable solution to the Parties. If the Parties are unable to reach a mutually acceptable solution within 20 days of the disclosure being sent, the importing Party may apply the appropriate definitive measures.
7. The Party whose goods are subject to anti-dumping or countervailing measures imposed by the other Party has the right to request consultations in order to discuss the impact of

these measures on bilateral trade. Consultations shall be held upon the agreement of both Parties.

Article 7.6: Other Provisions

1. The Parties agree, when imposing measures covered by this Chapter, to give priority, to the extent possible, to measures that cause minimal economic injury and do not create serious obstacles to the implementation of this Agreement.
2. Within three years of the entry into force of this Agreement, the Parties shall review all or parts of this Chapter in light of the Parties' practices and developments on trade remedy measures. This review shall take place within the framework of the Trade in Goods Committee.

- (c) by a service supplier of a Party, through commercial presence in the territory of the other Party;
- (d) by a service supplier of a Party, through presence of natural persons of a Party in the territory of the other Party;

traffic rights means the right for scheduled and non-scheduled services to operate and/or to carry passengers, cargo and mail for remuneration or hire from, to, within, or over the territory of a Party, including points to be served, routes to be operated, types of traffic to be carried, capacity to be provided, tariffs to be charged and their conditions, and criteria for designation of airlines, including such criteria as number, ownership, and control.

Article 8.2: Scope and Coverage

1. This Chapter applies to measures adopted or maintained by Parties affecting trade in services.

¹³ Where the service is not supplied or sought to be supplied directly by a juridical person but through other forms of commercial presence such as a branch or a representative office, the service supplier (i.e. the juridical person) shall, nonetheless, through such commercial presence be accorded the treatment provided for service suppliers under this Chapter. Such treatment shall be extended to the commercial presence through which the service is supplied or sought to be supplied and need not be extended to any other parts of the service supplier located outside the territory where the service is supplied or sought to be supplied.

2. This Chapter shall not apply to:
 - (a) government procurement;
 - (b) services supplied in the exercise of governmental authority;
 - (c) subsidies or grants provided by a Party, including government-supported loans, guarantees, and insurance;
 - (d) measures affecting natural persons of a Party seeking access to the employment market of the other Party, or measures regarding citizenship, residence or employment on a permanent basis; or
 - (e) measures affecting air traffic rights or measures affecting services directly related to the exercise of air traffic rights, other than measures affecting:
 - (i) aircraft repair and maintenance services;
 - (ii) the selling and marketing of air transport services; or
 - (iii) computer reservation system services.
3. Nothing in this Chapter or its Annexes shall prevent a Party from applying measures to regulate the entry of natural persons into, or their temporary stay in, its territory, including those measures necessary to protect the integrity of, and to ensure the orderly movement of natural persons across, its borders, provided that such measures are not applied in such a manner as to nullify or impair the benefits accruing to any Party under the terms of a specific commitment.¹⁴
4. For the purpose of this Chapter, “measures by Parties” means measures adopted or maintained by:
 - (a) central, regional, or local governments and authorities; and
 - (b) non-governmental bodies in the exercise of powers delegated by central, regional, or local governments or authorities.

In fulfilling its obligations and commitments under this Agreement, each Party shall take such reasonable measures as may be available to it to ensure their observance by regional and local governments and authorities and non-governmental bodies within its territory.

5. The rights and obligations of the Parties in respect of Financial Services shall be governed by the Annex on Financial Services of the General Agreement on Trade in Services (GATS), which is hereby incorporated into and made part of this Agreement.

¹⁴ The sole fact of requiring a visa for natural persons shall not be regarded as nullifying or impairing benefits under a specific commitment.

Article 8.3: Schedules of Specific Commitments

1. Each Party shall set out in its schedule the specific commitments it undertakes in accordance with, Articles 8.5, 8.6, and 8.7.
2. With respect to sectors where such commitments are undertaken, each Schedule shall specify:
 - (a) terms, limitations and conditions on market access;
 - (b) conditions and qualifications on national treatment;
 - (c) undertakings relating to additional commitments referred to in Article 8.7; and
 - (d) where appropriate, the time-frame for implementation of such commitments and the date of entry into force of such commitments.
3. Measures inconsistent with both Articles 8.5 and 8.6 will be inscribed in the column relating to Article 8.5. In this case, the inscription will be considered to provide a condition or qualification to Article 8.6 as well.
4. The Parties' Schedules of Specific Commitments are set forth in Annex 8C (Schedules of Specific Commitments).

Article 8.4: Most-Favoured Nation Treatment

1. Except as provided for in its List of MFN Exemptions contained in Annex 8A (List of MFN Exemptions), a Party shall accord immediately and unconditionally, in respect of all measures affecting the supply of services to services and service suppliers of the other Party, treatment no less favourable than the treatment it accords to like services and service suppliers of any non-party.
2. The obligations of paragraph 1 shall not apply to:
 - (a) treatment granted under other existing or future agreements concluded by one of the Parties and notified under Article V or V bis of the GATS as well as treatment granted in accordance with Article VII of the GATS or its Annex on Financial Services;
 - (b) treatment granted by the UAE to services and service suppliers of the GCC Member States under the GCC Economic Agreement and treatment granted by the UAE under the Greater Arab Free Trade Area (GAFTA).
3. The provisions of this Chapter shall not be so construed as to prevent any Party from conferring or according advantages to adjacent countries in order to facilitate exchanges limited to contiguous frontier zones of services that are both locally produced and consumed.

4. If, after the entry into force of this Agreement, a Party enters into an agreement notified under Article V or Article V *bis* of the GATS, it shall upon request from the other Party afford adequate opportunity to that Party to negotiate the benefits granted therein.

Article 8.5: Market Access

1. With respect to market access through the modes of supply identified in the definition of “trade in services” contained in Article 8.1, each party shall accord services and service suppliers of the other Party treatment no less favourable than that provided for under the terms, limitations and conditions agreed and specified in its Schedule of Specific Commitments.¹⁵
2. In sectors where market access commitments are undertaken, the measures which a Party shall not maintain or adopt, either on the basis of a regional subdivision or on the basis of its entire territory, unless otherwise specified in its Schedule of Specific Commitments, are defined as:
 - (a) limitations on the number of service suppliers whether in the form of numerical quotas, monopolies, exclusive service suppliers or the requirements of an economic needs test;
 - (b) limitations on the total value of service transactions or assets in the form of numerical quotas or the requirement of an economic needs test;
 - (c) limitations on the total number of service operations or on the total quantity of service output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test;¹⁶
 - (d) limitations on the total number of natural persons that may be employed in a particular service sector or that a service supplier may employ and who are necessary for, and directly related to, the supply of a specific service in the form of numerical quotas or the requirement of an economic needs test;
 - (e) measures which restrict or require specific types of legal entity or joint venture through which a service supplier may supply a service; and
 - (f) limitations on the participation of foreign capital in terms of maximum percentage limit on foreign shareholding or the total value of individual or aggregate foreign investment.

¹⁵ If a Party undertakes a market-access commitment in relation to the supply of a service through the mode of supply referred to in the definition of “trade in services” paragraph (a) contained in Article 8.1 and if the cross-border movement of capital is an essential part of the service itself, that Party is thereby committed to allow such movement of capital. If a Party undertakes a market-access commitment in relation to the supply of a service through the mode of supply referred to in the definition of “trade in services” paragraph (c) contained in Article 8.1, it is thereby committed to allow related transfers of capital into its territory.

¹⁶ Subparagraph 2(c) does not cover measures of a Party which limit inputs for the supply of services.

Article 8.6: National Treatment

1. With respect to the services sectors inscribed in its Schedule of Specific Commitments, and subject to any conditions and qualifications set out therein, each Party shall accord to services and service suppliers of the other Party, in respect of all measures affecting the supply of services, treatment no less favourable than that it accords to its own like services and service suppliers.¹⁷
2. A Party may meet the requirement in paragraph 1 by according to services and service suppliers of the other Party either formally identical treatment or formally different treatment to that it accords to its own like services and service suppliers.
3. Formally identical or formally different treatment by a Party shall be considered to be less favourable if it modifies the conditions of competition in favour of services or service suppliers of that Party compared to the like service or service suppliers of the other Party.

Article 8.7: Additional Commitments

The Parties may negotiate commitments with respect to measures affecting trade in services not subject to scheduling under Articles 8.5 and 8.6, including those regarding qualification, standards or licensing matters. Such commitments shall be inscribed in a Party's Schedule of Specific Commitments.

Article 8.8: Modification of Schedules

Upon written request by a Party to the Joint Committee established under Article 17.1 (Establishment of the Joint Committee), the Joint Committee shall consider any modification of a specific commitment, including withdrawals, in the requesting Party's Schedule of Specific Commitments. Discussions regarding such modifications shall be held within three months after the requesting Party makes its request. The Joint Committee shall aim to ensure that a general level of mutually advantageous commitments, no less favourable to trade than that provided for in the Schedule of Specific Commitments prior to such consultations, is maintained.

Article 8.9: Domestic Regulation

1. In sectors where specific commitments are undertaken, each Party shall ensure that all measures of general application affecting trade in services are administered in a reasonable, objective, and impartial manner.
2. (a) Each Party shall maintain or institute as soon as practicable judicial, arbitral or administrative tribunals or procedures which provide, at the request of an affected service supplier of the other Party, for the prompt review of, and where justified, appropriate remedies for, administrative decisions affecting trade in services. Where such procedures are not independent of the agency entrusted with the administrative decision concerned,

¹⁷ Specific commitments assumed under this Article shall not be construed to require either Party to compensate for any inherent competitive disadvantages which result from the foreign character of the relevant services or service suppliers.

the Party shall ensure that the procedures in fact provide for an objective and impartial review.

- (b) The provisions of subparagraph (a) shall not be construed to require a Party to institute such tribunals or procedures where this would be inconsistent with its constitutional structure or the nature of its legal system.
3. Where authorisation is required by a party for the supply of a service for which a specific commitment under this Agreement has been made, the competent authorities of that Party shall:
- (a) within a reasonable period of time after the submission of an application considered complete under that Party's domestic laws and regulations, inform the applicant of the decision concerning the application;
 - (b) in the case of an incomplete application, at the request of the applicant to the extent practicable, identify the additional information that is required to complete the application and provide the opportunity to remedy deficiencies within a reasonable timeframe;
 - (c) at the request of the applicant, provide without undue delay information concerning the status of the application; and
 - (d) to the extent possible, if an application is rejected, inform the applicant in writing the reasons for such rejection within a reasonable period of time. An applicant should not be prevented from submitting another application solely on the basis on a previously rejected application.
4. In sectors where specific commitments are undertaken, each Party shall aim to ensure that measures relating to qualification requirements and procedures, technical standards and licensing requirements do not constitute unnecessary barriers to trade in services. The Parties shall aim to ensure that such requirements are, *inter alia*:
- (a) based on objective and transparent criteria, such as competence and the ability to supply the service;
 - (b) not more burdensome than necessary to ensure the quality of the service; and
 - (c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.
5. In determining whether a Party is in conformity with the obligation under paragraph 4, account shall be taken of international standards of relevant international organisations¹⁸ applied by that Party.

¹⁸ The term "relevant international organisations" refers to international bodies whose membership is open to the relevant bodies of the Parties to this Agreement.

6. In sectors where specific commitments are undertaken, each Party shall provide for adequate procedures to verify the competence of professionals of the other Party.
7. The Parties shall jointly review the results of the negotiations on disciplines on domestic regulation, pursuant to Article VI.4 of the GATS, with a view of incorporating them into this Chapter.

Article 8.10: Recognition

1. For the purposes of the fulfilment in whole or in part, of its standards or criteria for the authorisation, licensing or certification of service suppliers, each party shall give due consideration, as appropriate, to any request by the other Party to recognise, the education or experience obtained, requirements met, or licences or certifications granted in that other Party. Such recognition which may be achieved through harmonisation or otherwise, may be based upon an agreement or arrangement with that other Party, or otherwise be accorded autonomously.
2. Where a Party recognises, by agreement or arrangement, the education or experience obtained, requirements met, or licenses or certifications granted in the territory of a non-party, that Party shall afford the other Party adequate opportunity to negotiate its accession to such an agreement or arrangement, whether existing or future, or to negotiate a comparable agreement or arrangement with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that the education, or experience obtained, requirements met, or licences or certifications granted in the territory of that other Party should also be recognised.
3. The Parties or their relevant professional bodies, as appropriate, may negotiate agreements for mutual recognition of education, or experience obtained, requirements met or licenses or certifications granted. Upon a request being made in writing by a Party to the other Party, the receiving Party shall transmit the request to its relevant professional body, as appropriate. The Parties shall report periodically to the Joint Committee on progress and on impediments experienced. Any delay or failure by the Parties or their professional bodies to negotiate or to reach and conclude an agreement on the details of such arrangements shall not be regarded as a breach of a Party's obligations under this paragraph and shall not be subject to Chapter 15 (Dispute Settlement).
4. A Party shall not accord recognition in a manner which would constitute a means of discrimination between the countries in the application of its standards or criteria for the authorisation, licensing or certification of service suppliers, or a disguised restriction on trade in services.
5. The Parties agree to encourage, where possible, the relevant bodies in their respective territories responsible for issuance and recognition of professional and vocational qualifications to:
 - (a) strengthen cooperation and to explore possibilities for mutual recognition of respective professional and vocational qualifications; and

- (b) pursue mutually acceptable standards and criteria for licensing and certification with respect to service sectors of mutual importance to the Parties.

Article 8.11: Payments and Transfers

1. Except under the circumstances envisaged in Article 8.14, a Party shall not apply restrictions on international transfers and payments for current transactions with the other Party, relating to its specific commitments.
2. Nothing in this Chapter shall affect the rights and obligations of the Parties under the International Monetary Fund Agreement, including the use of exchange actions which are in conformity with the Articles of Agreement, provided that a Party shall not impose restrictions on capital transactions inconsistently with its specific commitments regarding such transactions, except under Article 8.14 or at the request of the International Monetary Fund.

Article 8.12: Monopolies and Exclusive Service Suppliers

1. Each Party shall ensure that any monopoly supplier of a service in its territory does not, in the supply of the monopoly service in the relevant market, act in a manner inconsistent with that Party's obligations under Article 8.4 and its specific commitments.
2. Where a Party's monopoly supplier competes, either directly or through an affiliated company, in the supply of a service outside the scope of its monopoly rights and which is subject to that Party's specific commitments, the Party shall ensure that such a supplier does not abuse its monopoly position to act in its territory in a manner inconsistent with such commitments.
3. The provisions of this Article shall also apply to cases of exclusive service suppliers, where a Party, formally or in effect:
 - (a) authorizes or establishes a small number of service suppliers; and
 - (b) substantially prevents competition among those suppliers in its territory.

Article 8.13: Business Practices

1. Parties recognize that certain business practices of service suppliers, other than those falling under Article 8.12, may restrain competition and thereby restrict trade in services.
2. Each Party shall, at the request of the other Party, enter into consultations with a view to eliminating practices referred to in paragraph 1. The Party addressed shall accord full and sympathetic consideration to such a request and shall cooperate through the supply of publicly available non-confidential information of relevance to the matter in question. The Party addressed shall also provide other information available to the requesting Party, subject to its domestic law and to the conclusion of a satisfactory agreement concerning the safeguarding of its confidentiality by the requesting Party.

Article 8.14: Restrictions to Safeguard the Balance-of-Payments

1. The Parties shall endeavour to avoid the imposition of restrictions to safeguard the balance of payments.
2. In the event of serious balance-of-payments and external financial difficulties or threat thereof, a Party may adopt or maintain restrictions on trade in services on which it has undertaken specific commitments, including on payments or transfers for transactions related to such commitments. It is recognized that particular pressures on the balance of payments of a Party in the process of economic development or economic transition may necessitate the use of restrictions to ensure, *inter alia*, the maintenance of a level of financial reserves adequate for the implementation of its programme of economic development or economic transition.
3. The restrictions referred to in paragraph 2:
 - (a) shall not discriminate against the other Party;
 - (b) shall be consistent with the Articles of Agreement of the International Monetary Fund;
 - (c) shall avoid unnecessary damage to the commercial, economic, and financial interests of the other Party;
 - (d) shall not exceed those necessary to deal with the circumstances described in paragraph 2;
 - (e) shall be temporary and be phased out progressively as the situation specified in paragraph 2 improves.
4. In determining the incidence of such restrictions, Parties may give priority to the supply of services which are more essential to their economic or development programmes. However, such restrictions shall not be adopted or maintained for the purpose of protecting a particular service sector.
5. Any restrictions adopted or maintained under paragraph 2, or any changes therein, shall be promptly notified to the Joint Committee.

Article 8.15: Denial of Benefits

A Party may deny the benefits of this Agreement to a service supplier that is a juridical person, if persons of a non-Party own or control that juridical person and the denying Party:

- (a) does not maintain diplomatic relations with the non-Party and that non-Party is not a Member of the WTO; or
- (b) adopts or maintains measures with respect to the non-Party or a person of the non-Party that prohibit transactions with the enterprise or that would be violated or

circumvented if the benefits of this Agreement were accorded to the enterprise or to its investments.

Article 8.16: Review

With the objective of further liberalising trade in services between them, the Parties agree to jointly review their Schedules of Specific Commitments and Lists of MFN Exemptions within the framework of the Joint Committee, taking into account any autonomous liberalization and services liberalization developments as a result of on-going work under the auspices of the WTO.

ANNEX 8B TELECOMMUNICATIONS SERVICES

Article 1: Definitions

For the purposes of this Annex:

a regulatory authority means the body or bodies entrusted with any of the regulatory tasks assigned in relation to the issues mentioned in this Annex;

essential facilities means facilities of a public telecommunications transport network or service that:

- (a) are exclusively or predominantly provided by a single or limited number of suppliers; and
- (b) cannot feasibly be economically or technically substituted in order to supply a service;

major supplier means a supplier which has the ability to materially affect the terms of participation (having regard to price and supply) in the relevant market for basic telecommunications services as a result of:

- (a) control over essential facilities; or
- (b) the use of its position in the market.

public telecommunications transport network means the public telecommunications infrastructure which permits telecommunications between and among defined network termination points;

public telecommunications transport service means any telecommunications transport service required, explicitly or in effect, by a Party to be offered to the public generally. Such services may include, *inter alia*, telegraph, telephone, telex, and data transmission typically involving the real-time transmission of customer-supplied information between two or more points without any end-to-end change in the form of the customer's information;

reference interconnection offer means an interconnection offer extended by a major supplier that is sufficiently detailed to enable a supplier of a public telecommunications service to know the rates and conditions to obtain interconnection;

telecommunications means the transport of electromagnetic signals such as sound, data image and any combination thereof. The sector of telecommunications services does not cover the economic activity consisting of content provision which requires telecommunications services for its transport;

Article 2: Scope

1. This Annex applies to measures by Parties affecting trade in telecommunications services.¹⁹ It shall not apply to measures relating to broadcasting or to cable distribution of radio or television programming.²⁰
2. Nothing in this Annex shall be construed to:
 - (a) require a Party to compel any enterprise to establish, construct, acquire, lease, operate, or provide telecommunications transport networks or services where such networks or services are not offered to the public generally;
 - (b) require a Party to compel any enterprise exclusively engaged in the broadcast or cable distribution of radio or television programming to make available its broadcast or cable facilities as a public telecommunications transport network; or
 - (c) prevent a Party from prohibiting persons operating private networks from using their networks to supply public telecommunications transport networks or services to third parties.

Article 3: Competitive Safeguards

1. Each Party shall maintain appropriate measures for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices.
2. The anti-competitive practices referred to in paragraph 1 shall include, in particular:
 - (a) engaging in anti-competitive cross-subsidization;
 - (b) using information obtained from competitors with anti-competitive results; and
 - (c) not making available to other service suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to supply services.

Article 4: Interconnection

1. This Article applies to linking with suppliers providing public telecommunications transport networks or services in order to allow the users of one supplier to communicate with users of another supplier and to access services supplied by another supplier.

¹⁹ “Trade in telecommunications services” shall be understood in accordance with the definitions contained in Article 8.1 (Definitions), and also include measures in respect of the access to and use of public telecommunications networks and services.

²⁰ “Broadcasting” shall be defined as provided for in the relevant domestic law of each Party.

2. Any supplier licensed to provide telecommunications services shall have rights of interconnection with other providers of publicly available telecommunications networks and services. Interconnection rates should in principle be based on cost or be based on otherwise regulated rates for the suppliers concerned.
3. An interconnection point in the network shall be subject to negotiations between service suppliers and to technical feasibility. In the event that the service suppliers encounter difficulties with said negotiations, the competent authority shall be able to intervene and rule, in accordance with the Parties' relevant regulations. Such negotiations shall ensure that interconnection agreements are concluded:
 - (a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates and of a quality no less favorable than that provided for its own like services or for like services of non-affiliated service suppliers or for its subsidiaries or other affiliates; and
 - (b) in a timely fashion, on terms, conditions (including technical standards and specifications) and at cost-oriented rates that are transparent reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the services to be supplied.
4. Each Party shall ensure that suppliers of public telecommunications transport networks or services in its territory take appropriate steps to protect, *inter alia*:
 - (a) the privacy of individuals in relation to the processing and dissemination of personal data;
 - (b) the confidentiality of individual records; and
 - (c) the confidentiality of commercially sensitive information of, or relating to, suppliers and end-users of telecommunications services. Data and information obtained by a telecommunications service supplier shall only be used for the purpose of providing those services.
5. Nothing in this Annex restricts the right of a Party to protect personal data, personal privacy and the confidentiality of individual records and accounts, and other information protected under law.

Article 5: Universal Service

1. Each Party has the right to define the kind of universal service obligation it wishes to have.
2. Measures by Parties governing universal service shall be transparent, objective and non-discriminatory. They shall also be neutral with respect to competition and not be more burdensome than necessary for the kind of universal service defined by the Party.

Article 6: Licensing Procedure

1. Where a license or a concession is required for the supply of a telecommunications service, the competent authority of a Party shall make the following publicly available:
 - (a) the terms and conditions for such a license or a concession; and
 - (b) the period of time normally required to reach a decision concerning an application for a license or a concession.
2. Where a license or a concession is required for the supply of a telecommunications service, and if the applicable conditions are fulfilled, the competent authority of a Party shall grant the applicant a license or a concession within a reasonable period of time after the submission of its application is considered complete under that Party's law.
3. The competent authority of a Party shall notify the applicant of the outcome of its application promptly after a decision has been taken. In case a decision is taken to deny an application for a license or a concession, the competent authority of a Party shall make known to the applicant, upon request, the reason for the denial.

Article 7: Independent Regulatory Authority

1. Each Party's regulatory authority for telecommunications services shall be separate from, and not accountable to, any supplier of basic telecommunications services.
2. Each Party shall ensure that the decisions of, and the procedures used by, its regulatory authority are impartial with respect to all market participants.

Article 8: Scarce Resources

1. Each Party shall ensure that its procedures for the allocation and use of scarce telecommunications resources, including frequencies, numbers and rights of way, are carried out in an objective, timely, transparent, and non-discriminatory manner. Each Party shall make publicly available the current state of allocated frequency bands, but detailed identification of frequencies allocated for specific government uses shall not be required.
2. When assigning a spectrum for non-government radio-electric telecommunications services, each Party shall endeavor to rely as a rule on market-based approaches, taking full account of public interests.

Article 9: Resolutions of Telecommunications Disputes

Each Party shall ensure that:

- (a) suppliers may have recourse to its regulatory authority or other relevant body to resolve disputes regarding major suppliers;

- (b) a supplier that has requested interconnection with a major supplier, has recourse to its regulatory authority to resolve disputes regarding appropriate terms, conditions, and rates for interconnection with that major supplier within a reasonable timeframe; and
- (c) suppliers affected by the decisions of its regulatory authority have recourse to appeal to an independent administrative body and/or a court in accordance with the Party's law.

Article 10: Transparency

In the application of Article 8.2(Scope and Coverage), each Party shall ensure that relevant information on conditions affecting access to and use of public telecommunications transport networks and services is publicly available, including:

- (a) tariffs and other terms and conditions of service;
- (b) specifications of technical interfaces with such networks and services;
- (c) information on bodies responsible for the preparation and adoption of standards affecting such access and use;
- (d) conditions applying to attachment of terminal or other equipment to the public telecommunications network; and
- (e) notifications, permits, registration or licensing requirements, if any.

Article 11: Flexibility in the Choice of Technologies

1. Neither Party may prevent suppliers of public telecommunications transport services from having the flexibility to choose the technologies that they use to supply their services, including commercial mobile wireless services, subject to requirements necessary to satisfy legitimate public policy interests, provided that any measure restricting such choice is not prepared, adopted, or applied in a manner that creates unnecessary obstacles to trade.
2. For greater certainty, nothing in this Annex shall be construed to prevent a telecommunications regulatory body from requiring the proper license or other authorization to supply each public telecommunications transport service.

Article 10.13: Limited Tendering

1. Provided that it does not use this provision for the purposes of avoiding competition among suppliers or in a manner that discriminates against suppliers of the other Party or protects domestic suppliers, a procuring entity may use limited tendering and may choose not to apply Articles 10.7, 10.8, 10.9, 10.10, Articles 10.11.1 through 10.11.6, 10.11.11, and Articles 10.12, 10.14, 10.15 to such tenders.
2. A procuring entity may use limited tendering only under any of the following circumstances:
 - (a) provided that the requirements of the tender documentation are not substantially modified, where:
 - (i) no tenders were submitted or no suppliers requested participation;
 - (ii) no tenders that conform to the essential requirements of the tender documentation were submitted;
 - (iii) no suppliers satisfied the conditions for participation; or
 - (iv) the tenders submitted were collusive.
 - (b) where the goods or services can be supplied only by a particular supplier and no reasonable alternative or substitute goods or services exist for any of the following reasons:
 - (i) the requirement is for a work of art;
 - (ii) the protection of patents, copyrights or other exclusive rights; or
 - (iii) due to an absence of competition for technical reasons.
 - (c) for additional deliveries by the original supplier of goods or services that were not included in the initial procurement, where:
 - (i) a change of supplier for such additional goods or services cannot be made for economic or technical reasons, such as requirements of interchangeability or interoperability with existing equipment, software, services, or installations procured under the initial procurement; and
 - (ii) such separation would cause significant inconvenience or substantial duplication of costs for the procuring entity;

- (d) insofar as is strictly necessary where, for reasons of extreme urgency brought about by events unforeseeable by the procuring entity, the goods or services could not be obtained in time using open tendering or selective tendering;
 - (e) for goods purchased on a commodity market;
 - (f) where a procuring entity procures a prototype or a first good or service that is developed at its request in the course of, and for, a particular contract for research, experiment, study or original development. Original development of a prototype or a first good or service may include limited production or supply in order to incorporate the results of field testing and to demonstrate that the good or service is suitable for production or supply in quantity to acceptable quality standards, but does not include quantity production or supply to establish commercial viability or to recover research and development costs;
 - (g) for purchases made under exceptionally advantageous conditions that only arise in the very short term in the case of unusual disposals such as those arising from liquidation, receivership, or bankruptcy, but not for routine purchases from regular suppliers;
 - (h) where a contract is awarded to a winner of a design contest provided that:
 - (i) the contest has been organized in a manner that is consistent with the principles of this Chapter, in particular relating to the publication of a notice of intended procurement; and
 - (ii) the participants are judged by an independent jury with a view to a design contract being awarded to a winner; and
 - (i) where additional construction services, which were not included in the initial contract but which were within the objectives of the original tender documentation have, through unforeseen circumstances, become necessary to complete the construction services described therein. In such cases, the total value of contracts awarded for additional construction services may not exceed 50 percent of the amount of the initial contract.
3. For each contract awarded under paragraph 1, a procuring entity shall prepare a written report that includes:
- (a) the name of the procuring entity;
 - (b) the value and kind of goods or services procured; and
 - (c) a statement indicating the circumstances and conditions described in paragraph 1 that justify the use of limited tendering.

Article 10.14: Electronic Auctions

Where a procuring entity intends to conduct a covered procurement using an electronic auction, the entity shall provide each participant, before commencing the electronic auction, with:

- (a) the automatic evaluation method, including the mathematical formula, that is based on the evaluation criteria set out in the tender documentation and that will be used in the automatic ranking or re-ranking during the auction;
- (b) the results of any initial evaluation of the elements of its tender where the contract is to be awarded on the basis of the most advantageous tender; and
- (c) any other relevant information relating to the conduct of the auction.

Article 10.15: Treatment of Tenders and Awarding of Contracts

Treatment of Tenders

1. A procuring entity shall receive, open, and treat all tenders under procedures that guarantee the fairness and impartiality of the procurement process and shall treat all tenders in confidence until at least the opening of the tenders.
2. A procuring entity shall not penalise any supplier whose tender is received after the time specified for receiving tenders if the delay is due solely to mishandling on the part of the procuring entity.
3. Where a procuring entity provides suppliers with opportunities to correct unintentional errors of form between the opening of tenders and the awarding of the contract, the procuring entity shall provide the same opportunities to all participating suppliers.

Awarding of Contracts

4. A procuring entity shall require that in order to be considered for an award, a tender shall be submitted in writing and shall, at the time of opening, comply with the essential requirements set out in the notices and tender documentation and be from a supplier that satisfies the conditions for participation.
5. Unless a procuring entity determines that it is not in the public interest to award a contract, it shall award the contract to the supplier that it has determined to be capable of fulfilling the term of the contract and based solely on the evaluation criteria specified in the notices and tender documentation, and that has submitted:
 - (a) the most advantageous tender; or
 - (b) where price is the sole criterion, the lowest price.

6. Where a procuring entity receives a tender with a price that is abnormally lower than the prices in other tenders submitted, it may verify with the supplier that it satisfies the conditions for participation and is capable of fulfilling the terms of the contract.
7. A procuring entity shall not use options, cancel a covered procurement, or terminate or modify awarded contracts in a manner that circumvents this Chapter.

Article 10.16: Disclosure of Information

Provision of Information to Parties

1. On request of the other Party, a Party shall promptly provide any information necessary to determine whether a procurement was conducted fairly, impartially, and in accordance with this Chapter, including information on the characteristics and relative advantages of the successful tender. In cases where release of the information would prejudice competition in future tenders or confidential information, the Party that receives the information shall not disclose it to any supplier, except after consulting with, and obtaining the agreement of, the Party that provided the information.

Non-Disclosure of Information

2. Notwithstanding any other provision of this Chapter, a procuring entity shall not provide information to particular suppliers that might prejudice fair competition between suppliers, except with the written authorization of the supplier that provided the information and as permitted by the Party's laws and procedures.
3. Nothing in this Agreement shall be construed to require a Party, including its procuring entities, authorities and review bodies, to disclose confidential information where disclosure:
 - (a) would impede law enforcement;
 - (b) might prejudice fair competition between suppliers;
 - (c) would prejudice the legitimate commercial interests of particular persons, including the protection of intellectual property; or
 - (d) would otherwise be contrary to the public interest.

Article 10.17: Transparency and Post-Award Information

Information Provided to Suppliers

1. A procuring entity shall promptly inform suppliers that have submitted tenders of its contract award decision. Subject to Article 10.16.2 and 10.16.3, a procuring entity shall, upon request, provide an unsuccessful supplier with the reasons that the procuring entity did not select that supplier's tender and the relative advantages of the successful supplier's tender.

2. Not later than 72 days after the award of each contract covered by this Chapter, a procuring entity shall publish a notice regarding that award according to the regulations and procedures of that Party.

Maintenance of Records

3. Each procuring entity shall, for a period of at least three years from the date it awards a contract, maintain:
 - (a) the documentation and reports of tendering procedures and contract awards relating to covered procurement, including the reports required under Article 10.13 and
 - (b) data that ensure the appropriate traceability of the conduct of covered procurement by electronic means.

Article 10.18: Domestic Review Procedures

1. Each Party shall provide a timely, effective, transparent, and non-discriminatory administrative or judicial review procedure through which a supplier may challenge:
 - (a) a breach of this Chapter; or
 - (b) when the supplier does not have a right to directly challenge a breach of this Chapter under the law of a Party, a failure to comply with a Party's measures implementing this Chapter.
2. The procedural rules for all challenges shall be in writing and made generally available.
3. In the event of a complaint by a supplier, arising in the context of covered procurement in which the supplier has, or had, an interest, that there has been a breach or a failure as referred to in paragraph 1, the Party of the procuring entity conducting the procurement shall encourage the procuring entity and the supplier to seek resolution of the complaint through consultations. The procuring entity shall accord impartial and timely consideration to any such complaint in a manner that is not prejudicial to the supplier's participation in ongoing or future procurement or its right to seek corrective measures under the administrative or judicial review procedure.
4. Each supplier shall be allowed a sufficient period of time to prepare and submit a challenge, which in no case shall be less than 10 days from the time when the basis of the challenge became known or reasonably should have become known to the supplier.
5. Each Party shall maintain at least one impartial administrative or judicial authority (hereinafter referred to as "review body") that is independent of its procuring entities to receive and review, in a non-discriminatory, timely, transparent and effective manner, complaints that a supplier of a Party submits, in accordance with the Party's law, relating to a covered procurement.

6. Where a review body other than an authority referred to in paragraph 5 initially reviews a challenge, the Party shall ensure that the supplier may appeal the initial decision to an impartial administrative or judicial authority that is independent of the procuring entity whose procurement is the subject of the challenge.
7. Each Party shall ensure that a review body, that is not a court, shall have its decision subject to judicial review or have procedures that provide that:
 - (a) the procuring entity shall respond in writing to the challenge and disclose all relevant documents to the review body;
 - (b) the participants to the proceedings (hereinafter referred to as “participants”) shall have the right to be heard prior to a decision of the review body being made on the challenge;
 - (c) the participants shall have the right to be represented and accompanied;
 - (d) the participants shall have access to all proceedings;
 - (e) the participants shall have the right to request that the proceedings take place in public and that witnesses may be presented; and
 - (f) decisions or recommendations relating to supplier challenges shall be provided, in a timely manner, in writing, with an explanation of the basis for each decision or recommendation.
8. Each Party shall adopt or maintain procedures that provide for:
 - (a) rapid interim measures to preserve the supplier’s opportunity to participate in the procurement. Such interim measures may result in suspension of the procurement process. The procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account when deciding whether such measures should be applied. Just cause for not acting shall be provided in writing; and
 - (b) where a review body has determined that there has been a breach of this Chapter or a failure, corrective action, or compensation for the loss or damages suffered, which may be limited to either the costs for the preparation of the tender or the costs relating to the challenge, or both.

Article 10.19: Rectifications and Modifications to Coverage

1. A Party may make rectifications of a purely formal nature to its coverage under this Chapter, or minor amendments to its Schedule, included in Annex 10A and Annex 10B, provided that it notifies the other Party in writing and the other Party does not object in writing within 45 days from notification. A Party that makes such a rectification or minor amendment need not provide compensatory adjustments to the other Party.

2. A Party may otherwise modify its coverage under this Chapter provided that:
 - (a) it notifies the other Party in writing and simultaneously offers acceptable compensatory adjustments to the other Party to maintain a level of coverage comparable to that existing prior to the modification, where necessary; and
 - (b) no objection in writing was submitted by the other Party within 30 days of notification.
3. A Party need not provide compensatory adjustments when proposing a modification on the grounds that government control or influence over the entity's covered procurement has been effectively eliminated. Where a Party objects to the assertion that such government control or influence has been effectively eliminated, the objecting Party may request further information or consultations with a view to clarifying the nature of any government control or influence and of reaching agreement on the procuring entity's continued coverage under this Chapter.

Article 10.20: SMEs' Participation

1. The Parties recognize the importance of the participation of SMEs in government procurement.
2. The Parties also recognize the importance of business alliances between suppliers of each Party, and in particular of SMEs, including through joint participation in tendering procedures.
3. The Parties shall work jointly towards exchanging information and facilitating SME access to government procurement procedures, methods, and contracting requirements, focused on SMEs' special needs.
4. The Parties reserve the right to apply a preferential procurement policy for their SMEs in accordance with their respective domestic laws and regulations as specified in Section G of their Schedules, included in Annex 10A and Annex 10B.
5. If a Party maintains a measure that provides preferential treatment for SMEs, the Party shall ensure that the measure, including the criteria for eligibility, is transparent. A Party maintaining a measure that provides preferential treatment for SMEs will notify the other Party of any changes in its preferential treatment to SMEs.

Article 10.21: Cooperation

1. The Parties recognize the importance of cooperation with a view to achieving a better understanding of their respective government procurement systems, as well as better access to their respective markets, in particular for SMEs.

- (c) capacity assistance to suppliers with respect to access to the government procurement market.

Article 10.22: Further Negotiations

Upon request of a Party, 3 years after the date of entry into force of this Agreement, or, in the event that a Party offers additional advantages with regard to its respective government procurement market access coverage agreed under this Chapter in the future to a non-Party, the Parties shall enter into negotiations with a view to extending coverage under this Chapter on a reciprocal basis.

Article 10.23: Ensuring Integrity in Procurement Practices

Each Party shall ensure that criminal or administrative measures exist to address corruption in its government procurement. These measures may include procedures to render ineligible for participation in the Party's procurements, either indefinitely or for a stated period of time, suppliers that the Party has determined to have engaged in fraudulent or other illegal actions in relation to government procurement in the Party's territory. Each Party shall also ensure that it has policies and procedures in place to eliminate, to the extent possible, or manage any potential conflict of interest on the part of those engaged in or having influence over a procurement.

Article 10.24: Financial Obligations

1. This Chapter does not entail any financial obligations for the Parties.
2. Each Party is responsible for any financial expenses it incurs to fulfil its role in this Chapter.

Article 10.25: Language

To improve market access to each Party's procurement market, each Party shall, where possible, use English in its publication of materials or information pursuant to Article 10.6, including in the publications listed in Section E of each Party's Schedule, included in Annex 10A and Annex 10B.

Article 11.7: Intellectual Property and Public Health

The Parties recognise the principles established in the Declaration on The TRIPS Agreement and Public Health adopted on 14 November 2001 (hereinafter referred to as the “Doha Declaration”) by the Ministerial Conference of the WTO and confirm that the provisions of this Chapter are without prejudice to the Doha Declaration.

Article 11.8: National Treatment

1. In respect of all categories of intellectual property covered in this Chapter, each Party shall accord to nationals of another Party treatment no less favourable than it accords to its own nationals with regard to the protection³⁷ of intellectual property rights without derogating from Articles 3 and 5 of the TRIPS Agreement.
2. With respect to secondary uses of phonograms, a Party may limit the rights of the performers and producers of another Party to the rights its persons are accorded within the jurisdiction of that other Party.

³⁷ For the purposes of this paragraph, “protection” shall include matters affecting the availability, acquisition, scope, maintenance, and enforcement of intellectual property rights, as well as matters affecting the use of intellectual property rights specifically covered by this Chapter.

3. A Party may avail itself of the exceptions permitted under paragraph 1 in relation to its judicial and administrative procedures, including requiring a national of another Party to designate an address for service of process in its territory or to appoint an agent in its territory, provided that such derogation is:
 - (a) necessary to secure compliance with laws or regulations that are not inconsistent with this Chapter; and
 - (b) not applied in a manner that would constitute a disguised restriction on trade.

Article 11.9: Transparency

1. Each Party shall endeavor, subject to its law, to make available on the internet information that it makes public concerning applications for trademarks, geographical indications, designs, patents, and plant variety rights.³⁸
2. Each Party shall, subject to its law, make available on the internet or otherwise make publicly available information that it makes public concerning registered or granted trademarks, geographical indications, designs, patents, and plant variety rights, sufficient to enable the public to become acquainted with those registered or granted rights.³⁹

Article 11.10: Application of Chapter to Existing Subject Matter and Prior Acts

1. Unless otherwise provided in this Chapter, this Chapter gives rise to obligations in respect of all subject matter existing at the date of entry into force of this Agreement for a Party and that is protected on that date in the territory of a Party where protection is claimed, or that meets or comes subsequently to meet the criteria for protection under this Chapter.⁴⁰
2. Unless provided in this Chapter, a Party shall not be required to restore protection to subject matter that on the date of entry into force of this Agreement for that Party has fallen into the public domain in its territory.
3. This Chapter does not give rise to obligations in respect of acts that occurred before the date of entry into force of this Agreement for a Party.

Article 11.11: Exhaustion of Intellectual Property Rights

Nothing in this Chapter prevents a Party from determining whether or under what conditions the exhaustion of intellectual property rights applies under its legal system.⁴¹

³⁸ For greater certainty, paragraph 1 does not require a Party to make available on the internet the entire dossier for the relevant application.

³⁹ For greater certainty, paragraph 2 does not require a Party to make available on the internet the entire dossier for the relevant registered or granted intellectual property right.

⁴⁰ It is understood that this Article does not derogate from the provision of Article 70 of the TRIPS Agreement.

⁴¹ For greater certainty, this Article is without prejudice to any provisions addressing the exhaustion of intellectual property rights in international agreements to which a Party is a party.

Article 11.12: Procedural Aspects of Examination, Opposition and Cancellation of Certain Registered Industrial Property Rights

Each Party shall provide a system for the examination and registration of trademarks, patents, and industrial designs which includes, among other things:

- (a) communicating to the applicant in writing, which may be by electronic means, the reasons for any refusal to register a trademark, patent, or industrial design;
- (b) providing the applicant with an opportunity to respond to communications from the competent authorities, to contest any initial refusal, and to make a judicial appeal of any final refusal to register a trademark;
- (c) providing an opportunity for interested parties to seek revocation, cancellation, or invalidation of a registered trademark, patent, or industrial design, and, in addition, may provide an opportunity for interested parties to oppose the registration of a trademark, patent, or industrial design; and
- (d) requiring decisions in opposition and cancellation proceedings to be reasoned and in writing, which may be provided by electronic means.

Section B: Cooperation

Article 11.13: Cooperation Activities and Initiatives

The Parties shall endeavour to cooperate on the subject matter covered by this Chapter, such as through appropriate coordination, training, and exchange of information between the respective intellectual property offices of the Parties or other institutions as determined by each Party. Cooperation may cover areas such as:

- (a) developments in domestic and international intellectual property policy;
- (b) education and awareness relating to intellectual property;

Section C: Trademarks

Article 11.15: Trademark Protection

Each Party shall ensure that any signs or any combination of signs capable of distinguishing the goods and services of one undertaking from those of other undertakings shall be capable of constituting a trademark. Such signs, in particular, words including personal names, letters, numerals, figurative elements, three-dimensional shapes, and combinations of colours, as well as any combination of such signs, shall be eligible for registration as trademarks. Where signs are not inherently capable of distinguishing the relevant goods or services, the Parties may make registrability depend on distinctiveness acquired through use. Neither Party shall deny registration of a trademark solely on the grounds that the sign of which it is composed is a sound.⁴²

Article 11.16: Use of Identical or Similar Signs

Each Party shall provide that the owner of a registered trademark has the exclusive right to prevent third parties that do not have the owner's consent from using, in the course of trade, identical or similar signs⁴³ for goods or services identical or similar to those goods or services in respect of which the owner's trademark is registered where such use would result in a likelihood of confusion. In the case of the use of an identical sign for identical goods or services, a likelihood of confusion shall be presumed. The rights described above shall not prejudice any existing prior rights, nor shall they affect the possibility of Parties making rights available on the basis of use.

Article 11.17: Well-Known Trademarks

1. No Party shall require as a condition for determining that a trademark is well-known that the trademark has been registered in the Party or in another jurisdiction, included on a list of well-known trademarks, or given prior recognition as a well-known trademark.
2. Article 6bis of the Paris Convention shall apply, *mutatis mutandis*, to goods or services that are not identical or similar to those in respect of which a trademark is registered, provided that use of that trademark in relation to those goods or services would indicate a connection between those goods or services and the owner of the registered trademark and provided that the interests of the owner of the registered trademark are likely to be damaged by such use.
3. The Parties recall the Joint Recommendation Concerning Provisions on the Protection of Well-Known Marks as adopted by the Assembly of the Paris Union for the Protection of Industrial Property and the General Assembly of WIPO at the Thirty-Fourth Series of Meetings of the Assemblies of the Member States of WIPO from 20-29 September 1999.
4. Each Party shall provide for appropriate measures to refuse the application or cancel the registration and prohibit the use of a trademark that is identical or similar to a well-

⁴² A Party may require an adequate description, which may include a graphical representation, of the trademark.

⁴³ For greater certainty, the Parties understand that this Article should not be interpreted to affect their rights and obligations under Articles 22, 23, and 24 (3)-(9) of the TRIPS Agreement.

known trademark for identical or similar goods or services if the use of that trademark is likely to cause confusion with the prior well-known trademark. A Party may also provide such measures including in cases in which the subsequent trademark is likely to deceive.

Article 11.18: Classification of Goods and Services

Each Party shall adopt or maintain a trademark classification system that is consistent with the Nice Agreement Concerning the International Classification of Goods and Services for the Purposes of the Registration of Marks, done at Nice on 15 June 1957 (Geneva Act 1977, as amended 1979).

Article 11.19: Term of Protection for Trademarks

Each Party shall provide that initial registration and each renewal of registration of a trademark is for a term of no less than 10 years.

Article 11.20: Exceptions

A Party may provide limited exceptions to the rights conferred by a trademark, such as fair use of descriptive terms, provided that those exceptions take account of the legitimate interest of the owner of the trademark and of third parties.

Section D: Geographical Indications

Article 11.21: Geographical Indications

1. For the purposes of this Chapter, a geographical indication means an indication that identifies a good as originating in the territory of a Party, or a region or locality in that territory, where a given quality, reputation, or other characteristic of the good is essentially attributable to its geographical origin.
2. The Parties recognise that geographical indications may be protected through a trademark or *sui generis* system or other legal means that is consistent with the TRIPS Agreement.

Section E: Patents and Industrial Designs

Subsection A: Patents

Article 11.22: Grace Period

Each Party, subject to its laws and regulations, may disregard information contained in public disclosures used to determine if an invention is novel or has an inventive step if the public disclosure:

- (a) was made by the inventor, patent applicant, or a person that obtained the information from the inventor or patent applicant; and
- (b) occurred within twelve months prior to the date of filing of the application.

Article 11.23: Patentable Subject Matter

1. Each Party shall make patents available for any invention, whether a product or process, in all fields of technology, provided that the invention is new, involves an inventive step and is capable of industrial application.⁴⁴ In addition, each Party may provide that a patent shall be available for any new use or method of using a known product.
2. Each Party may exclude from patentability⁴⁵:
 - (a) inventions, the prevention within its territory of the commercial exploitation of which is necessary to protect *ordre public* or morality, including to protect human, animal, or plant life or health or to avoid serious prejudice to the environment, provided that such exclusion is not made merely because the exploitation is prohibited by its law; and
 - (b) diagnostic, therapeutic, and surgical methods for the treatment of humans or animals.

Article 11.24: Exceptions

A Party may provide limited exceptions to the exclusive rights conferred by a patent, provided that such exceptions do not unreasonably conflict with a normal exploitation of the patent and do not unreasonably prejudice the legitimate interests of the patent owner, taking account of the legitimate interests of third parties.

Subsection B: Industrial Designs

Article 11.25: Design Protection

1. The Parties shall ensure in their national law adequate and effective protection of industrial designs.
2. The Parties shall ensure that requirements for securing or enforcing registered design protection do not unreasonably impair the opportunity to obtain or enforce such protection.
3. The duration of protection available for registered industrial designs shall amount to a period of at least 20 years.⁴⁶

⁴⁴ For purposes of this Article, the terms “inventive step” and “capable of industrial application” may be deemed by a Party to be synonymous with the terms “non-obvious” and “useful” respectively.

⁴⁵ For greater certainty, it is understood that this paragraph does not prevent a Party from legislating exceptions to patentability that are consistent with Article 27 of the TRIPS Agreement.

⁴⁶ It is understood that with regard to registered designs that the duration of protection may be based upon renewable incremental periods of protection totaling at least 20 years measured from the date on which an application for such protection was submitted. It is further understood that where a Party requires examination of such application as a condition of grant of the right, that enforcement of such right may begin as of the date such right is granted. It is further understood that the Parties are not obligated under this Chapter to accord national treatment with respect to unregistered design rights arising in the territory of the other Party.

Section F: Copyright and Related Rights

Article 11.26: Right of Reproduction

Each Party shall provide⁴⁷ to authors and producers of phonograms⁴⁸ the exclusive right to authorise or prohibit all reproduction of their works or phonograms in any manner or form, including in electronic form.

Article 11.27: Right of Communication to the Public

Without prejudice to Article 11(1)(ii), Article 11bis(1)(i) and (ii), Article 11ter(1)(ii), Article 14(1)(ii), and Article 14bis(1) of the Berne Convention, each Party shall provide to authors the exclusive right to authorise or prohibit the communication to the public of their works,⁴⁹ by wire or wireless means, including the making available to the public of their works in such a way that members of the public may access these works from a place and at a time individually chosen by them.⁵⁰

Article 11.28: Related Rights

1. In accordance with their rights and obligations under the Rome Convention, 1961, and the TRIPS Agreement, each Party shall provide that the protection provided for performers shall at least include the possibility of preventing:
 - (a) the broadcasting and communication to the public, without their consent, of their live performance, except where the performance used in the broadcasting or public communication is itself already a broadcast performance or is made; and
 - (b) the fixation, without their consent, of their unfixed performance.
2. A Party may provide to performers the exclusive right to authorise or prohibit the broadcasting or any communication to the public of their performances, by wire or wireless means, and the making available to the public of those performances in such a way that members of the public may access them from a place and at a time individually chosen by them.
3. A Party may provide to producers of phonograms the exclusive right to authorise or prohibit the broadcasting or any communication to the public of their phonograms, by wire or wireless means. Each Party shall provide phonogram producers with the exclusive right of authorizing the making available to the public of their phonograms,

⁴⁷ For greater certainty, the Parties understand that it is a matter for each Party's law to prescribe that works, performances, or phonograms, in general, or any specified categories of works, performances, and phonograms are not protected by copyright or related rights unless the work, performance, or phonogram has been fixed in some material form.

⁴⁸ References to "authors and producers of phonograms" refer also to any of their successors in interest.

⁴⁹ For Israel, it is understood that "communication to the public" may be satisfied by granting to authors the exclusive right to authorize or prohibit the public performance of their works, the broadcast, by wire or wireless means, of their works, and the making available to the public of their works in such a way that members of the public may access these works from a place and at a time individually chosen by them.

⁵⁰ The Parties understand that the mere provision of physical facilities for enabling or making a communication does not in itself amount to communication within the meaning of this Chapter or the Berne Convention. The Parties further understand that nothing in this Article precludes a Party from applying Article 11bis(2) of the Berne Convention.

by wire or wireless means, in such a way that members of the public may access them from a place and at a time individually chosen by them.

Article 11.29: Limitations and Exceptions

1. With respect to this Section, each Party shall confine limitations or exceptions to exclusive rights to certain special cases that do not conflict with a normal exploitation of the work, performance, or phonogram, and do not unreasonably prejudice the legitimate interests of the right holder.
2. This Article does not reduce or extend the scope of applicability of the limitations and exceptions permitted by the TRIPS Agreement, the Berne Convention, the Rome Convention, the WIPO Copyright Treaty (WCT) (1996) or the WIPO Performances and Phonograms Treaty (WPPT) (1996).

Section G: Enforcement

Article 11.30: General Obligation in Enforcement

Each Party shall ensure that enforcement procedures as specified in this Section are available under its law so as to permit effective action against any act of infringement of intellectual property rights covered by this Chapter, including expeditious remedies to prevent infringements and remedies that constitute a deterrent to future infringements. These procedures shall be applied in such a manner as to avoid the creation of barriers to legitimate trade and to provide for safeguards against their abuse.

Article 11.31: Border Measures

Each Party shall, in conformity with its domestic law and regulations and the provisions of Part III, Section 4 of the TRIPS Agreement, adopt or maintain procedures to enable a right holder, who has valid grounds for suspecting that the importations of counterfeit trademark or pirated copyright goods⁵¹ may take place, to lodge an application in writing with the competent authorities in the Party in which the border measure procedures are applied, for the suspension by that Party's customs authorities of the release into free circulation of such goods. A Party may enable such an application to be made in respect of goods which involve other infringements of intellectual property rights, provided that the requirements of Part III, Section 4 of the TRIPS Agreement are met. A Party may also provide for corresponding procedures concerning the suspension by the customs authorities of the release of infringing goods destined for exportation from its territory as per its domestic laws and regulation.

⁵¹ For the purposes of this Chapter: (a) "counterfeit trademark goods" means any goods, including packaging, bearing without authorization a trademark which is identical to the trademark validly registered in respect of such goods, or which cannot be distinguished in its essential aspects from such a trademark, and which thereby infringes the rights of the owner of the trademark in question under the law of the country of importation; (b) "pirated copyright goods" means any goods which are copies made without the consent of the right holder or person duly authorized by the right holder in the country of production and which are made directly or indirectly from an article where the making of that copy would have constituted an infringement of a copyright or related right under the law of the country of importation.

2. The suspension or termination of the panel's proceedings is without prejudice to the rights of either Party in other proceedings on the same matter under this Chapter.
3. Before the panel provides its final report, it may at any stage of the proceedings propose to the Parties that the dispute be settled amicably.
4. The Parties may reach a mutually agreed solution to a dispute under this Chapter at any time to terminate the proceedings of a panel. In such event, the Parties shall jointly notify the chair of the panel and the Joint Committee of any such solution. Upon notification of the mutually agreed solution, any dispute settlement procedure under this Chapter shall be terminated.

Article 15.13: Panel Reports

1. Unless the Parties decide otherwise, the panel shall issue its report in accordance with the provisions of this Chapter, including the rules of procedure established in Annex 15B.

3. The panel shall issue an initial report to the Parties within 90 days, and in cases of urgency, within 60 days, of the appointment of the last panelist. This report shall contain:
 - (a) findings of fact and the basis upon which these findings were determined;

Article 15.14: Implementation of the Final Report

1. The Party concerned shall promptly comply with the determination or recommendation contained in the final report of the Panel. If it is impracticable to do so, the Parties shall endeavor to agree on a reasonable period of time to comply. In the absence of such agreement, within 30 days of the date of the issuance of the final report, either Party may request the original Panel to determine the length of the reasonable period of time in light of the particular circumstances of the case. A guideline for the Panel shall be that the reasonable period of time to comply with the determination or recommendation should not exceed 15 months from the date the final report was issued. The ruling of the Panel shall be given within 30 days from that request.
2. In case of disagreement as to the existence of a measure complying with the determination or recommendation in the final report or the consistency of that measure with the determination or recommendation of the Panel, the Complaining Party may request, in writing, that the original Panel decide on the matter. Such request shall be notified simultaneously to the Responding Party and to the Joint Committee. Such dispute shall be decided by the same Panel before compensation can be sought or suspension of benefits can be applied in accordance with Article 15.15. In the event the original Panel, or any of its members, is not available, the procedures established in Article 15.9 shall apply.
3. The ruling of the Panel shall normally be rendered within 90 days.

Article 15.15: Compensation and Non-implementation –Suspension of Benefits

If the Responding Party fails to properly comply with the determination or recommendation in the final report within a reasonable period of time as provided for in paragraph 1 of Article 15.14, the Responding Party shall, if so requested by the Complaining Party, enter into consultations with a view to agreeing on a mutually acceptable compensation. If no such agreement has been reached within 20 days from the request, the Complaining Party shall be entitled to suspend the application of benefits granted under this Agreement but only equivalent to those affected by the measure that the Panel has found to be inconsistent with this Agreement.
2. In considering what benefits to suspend, the Complaining Party should first seek to suspend benefits in the same sector or sectors as that affected by the measure that the

Panel has found to be inconsistent with this Agreement. The Complaining Party that considers it is not practicable or effective to suspend benefits in the same sector or sectors may suspend benefits in other sectors.

3. Compensation and suspension of benefits shall be temporary measures and shall only be applied by the Complaining Party until the measure found to be inconsistent with this Agreement has been withdrawn or amended so as to bring it into conformity with this Agreement, or until the Parties have settled the dispute otherwise.
4. Benefits shall not be suspended until the Panel has issued its ruling.
5. The Complaining Party shall notify the Responding Party of the benefits which it intends to suspend, the grounds for such suspension and when suspension will commence, no later than 30 days before the date on which the suspension is due to take effect. Within 15 days of that notification, the Responding Party may request the original panel to rule on whether the benefits which the Complaining Party intends to suspend are equivalent to those affected by the measure found to be inconsistent with this Agreement, and whether the proposed suspension is in accordance with paragraphs 1 and 2. In the event the original Panel, or any of its members, is not available, the procedures established in Article 15.9 shall apply.
6. In the written notice of the request referred to in paragraph 4, the Party shall identify the specific measure at issue and provide a brief summary of the legal basis of the complaint in a manner that is sufficient to present the problem clearly.
7. Subject to Article 15.11.8, the ruling of the Panel shall be given within 45 days of that request.
8. Procedures established in Article 8, the provisions of Articles 15.11 and 15.12 and of Annex 15B (Rules of Procedure), shall apply to a Panel reconvened under this Article.

Article 15.16: Compliance Review

1. Without prejudice to the procedures set out in Article 15.15.4, if the Responding Party considers that it has eliminated the non-conformity, it may refer the matter to the Panel by providing written notice to the Complaining Party. The Panel shall reconvene as soon as possible after delivery of the request and shall issue its report on the matter within 60 days after the Responding Party provides notice.
2. If the Panel decided that the Responding Party has eliminated the non-conformity, the Complaining Party shall promptly reinstate any benefits it has suspended under Article 15.15.

Article 15.17: Time Limits

Any time limit referred to in this Chapter may be reduced, waived, or extended, by mutual agreement of the Parties.
